

Last November, Merchants and Manufacturers Bank was purchased by Busey Bank for a loan product M&M Bank specializes in called Life Equity Loans. Launching M&M bank into a new way of doing things, the Busey way.

Change can seem overwhelming, especially when it comes to wanting to make sure your business isn't affected by the process. The hardest part is the waiting period of how to work your business. Taking the bull by the horn, I sat back and silently moved forward working with my customers.

Fast-forward to today, we are up and running as Busey Bank. Keeping heads high and working my business behind the scenes, I have been able to maintain a good workflow. I took some time to add Real Estate Mediation designation to my continuing education. This will not only help with my Certified Divorce Lending Professional as well as my customers who are not experiencing a life adjustment.

I now have a full load of products to help all your buyer's needs.

Success is the sum of small efforts-repeated day in and day ~Robert Collier
